## 1 INTRODUCTION

### 1.1 PURPOSE OF THE SOFTWARE REQUIREMENTS SPECIFICATION

The Functional Requirements Definition documents and tracks the necessary information required to effectively define business and functional requirements. The document is created during the Planning Phase of the project. Its intended audience is the project manager, project team, project sponsor, client, user, and any stakeholder whose input or approval into the requirements definitions process is needed.

## 2 BUSINESS REQUIREMENTS OVERVIEW

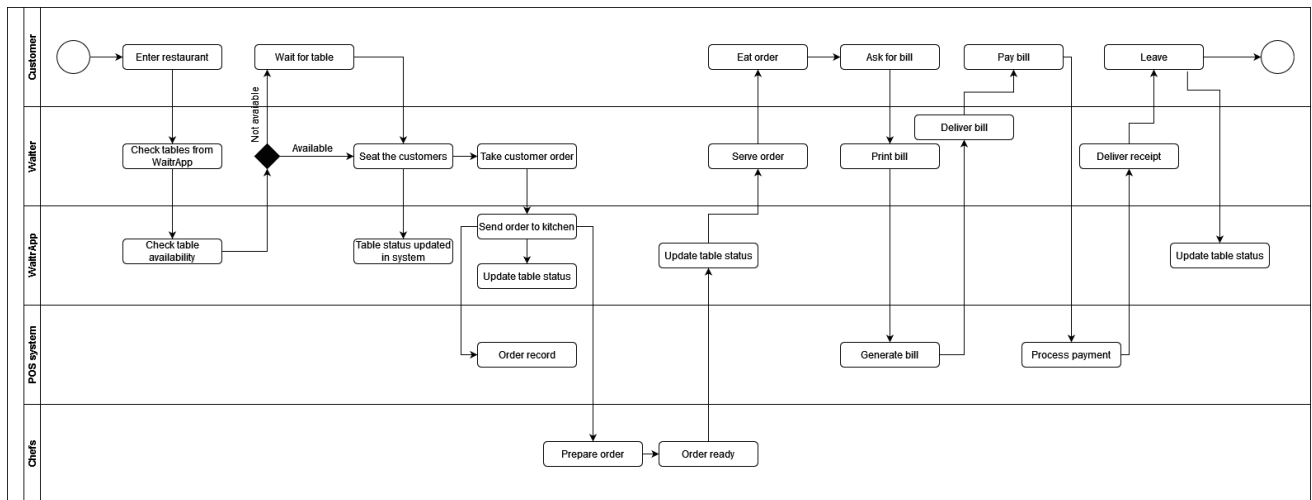

For business requirements overview please see the Vision and Scope document in project site.

### 2.1 ASSUMPTIONS / CONSTRAINTS

For assumptions and constraints overview please see the Vision and Scope document in project site.

## 3 SYSTEM MODELLING DIAGRAMS

### 3.1 BUSINESS PROCESSES VIEW

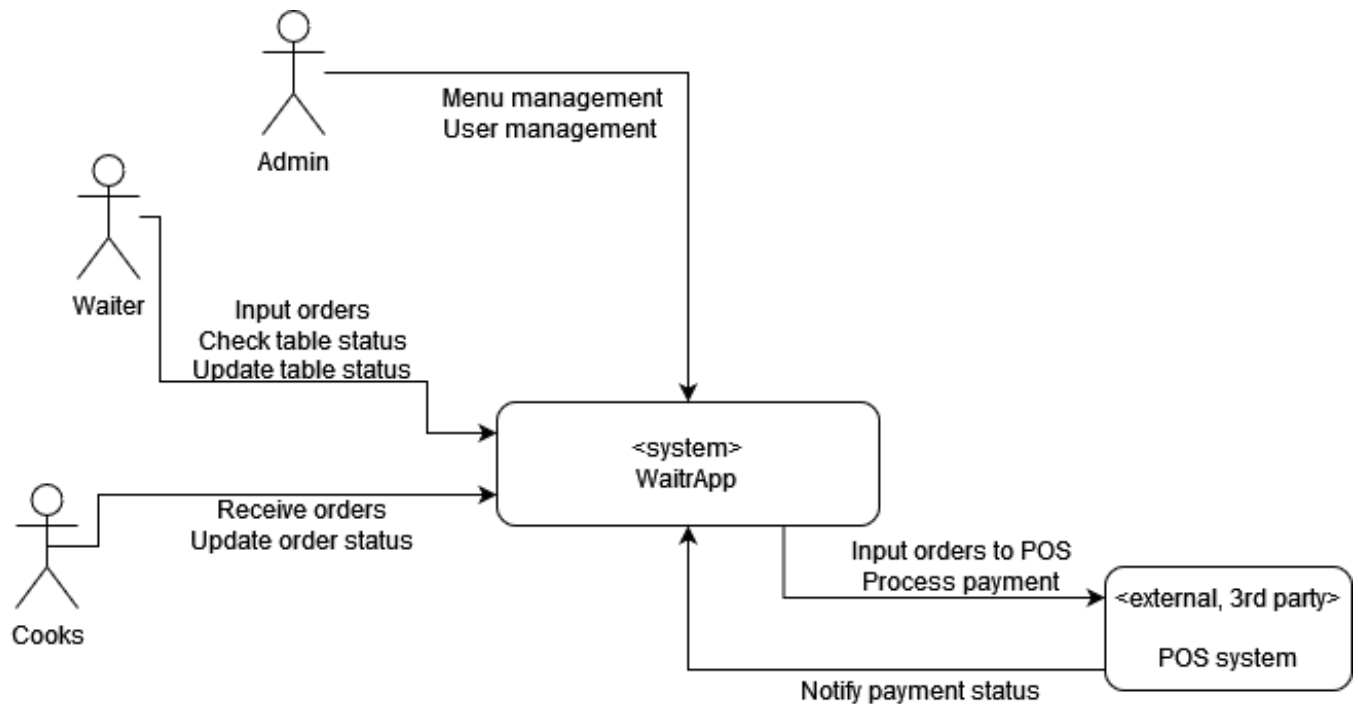

### 3.2 USE CASE DIAGRAMS

For use case diagrams, please see the Use Case Document in project site.

### 3.3 SYSTEM CONTEXT VIEW

For system context diagram, please see the Vision and Scope Document chapter 4.3. in project site.

### 3.4 CONTEXT VIEW

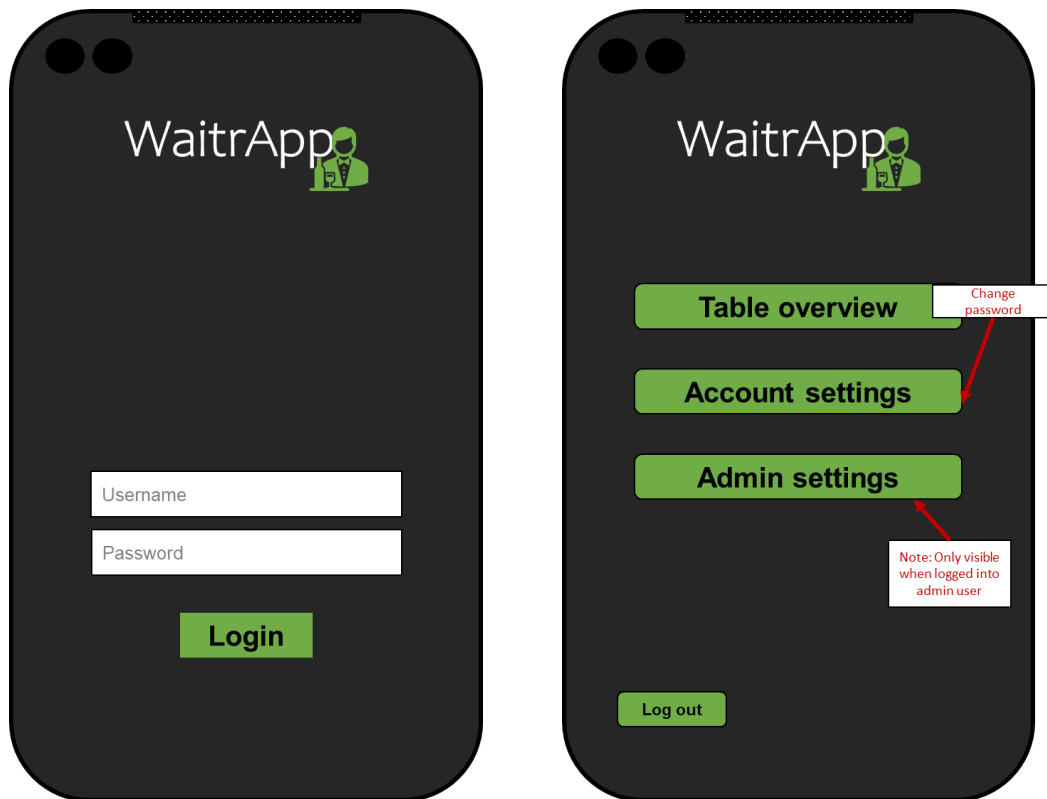

### 3.5 OPERATIONAL VIEW

For operational view diagram, please see the Vision and Scope Document chapter 4.3. in project site.

### 3.6 CLIENT APPLICATIONS UI PROTOTYPES

#### 3.6.1 Login Screen & Main menu

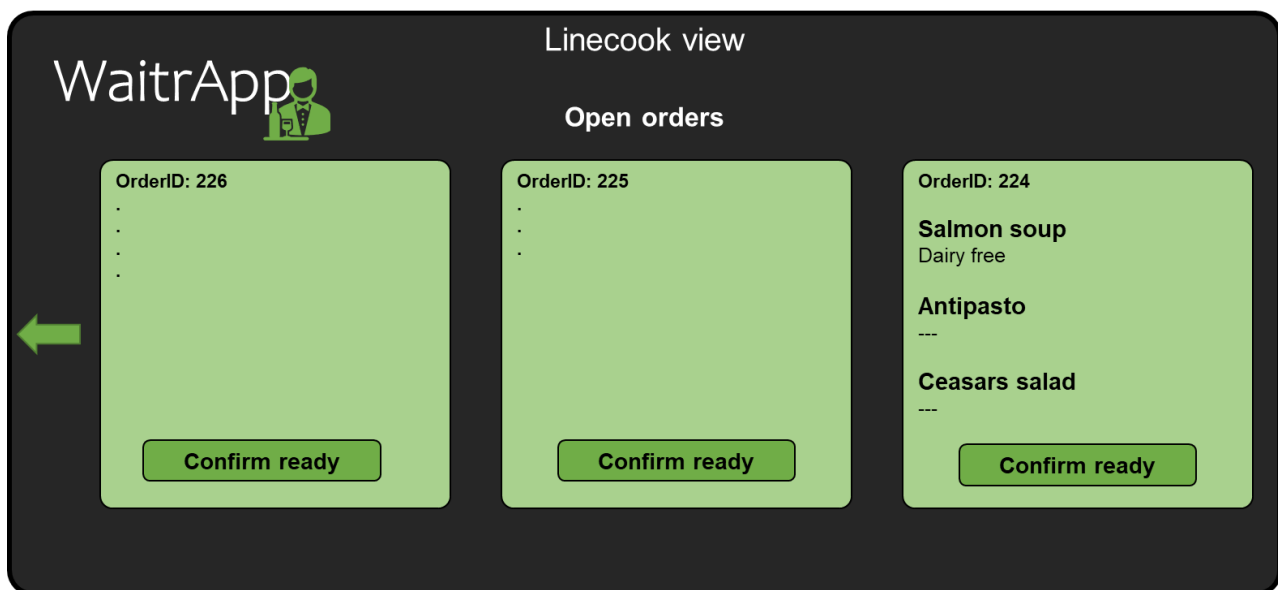

From the main menu you can access the table overview, admin menu or password maintenance view. Users can log out of their account using the main menu.

### 3.6.2 Table Overview & Order intake screen

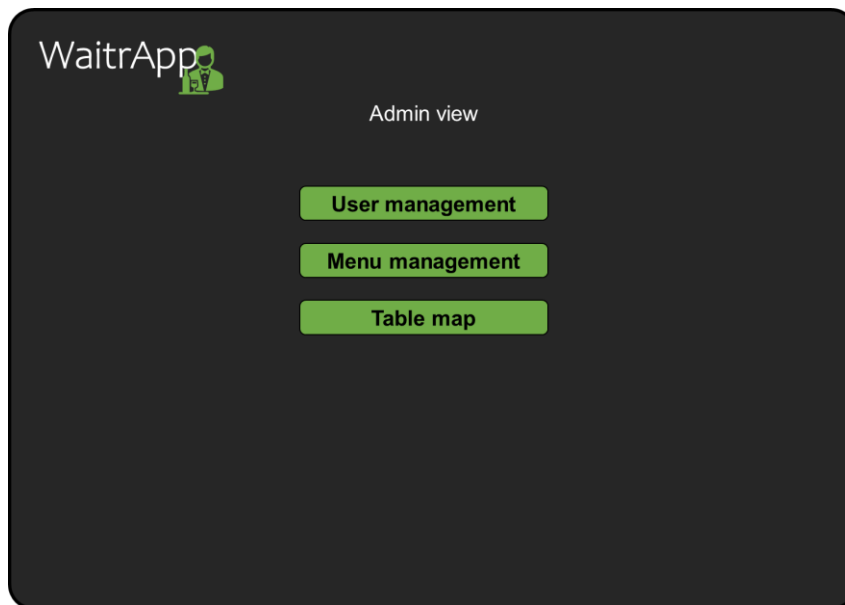

Table overview is accessed through the main menu. When table is clicked in the table overview, the user has option to create a new order. The order intake screen is used to input items into the order from the item categories.

### 3.6.3 Line cook view

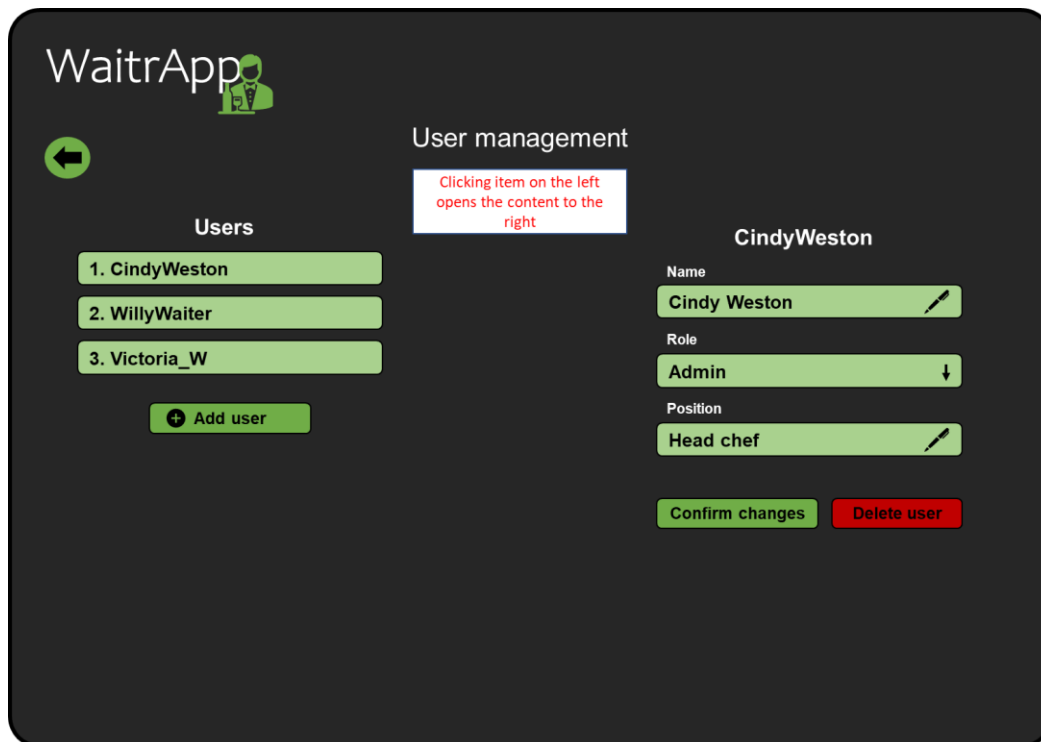

### 3.6.4 Admin menu

From admin menu you can access menu editor and user admin view.

### 3.6.5 User management

From user admin view one can add / edit existing users and assign roles

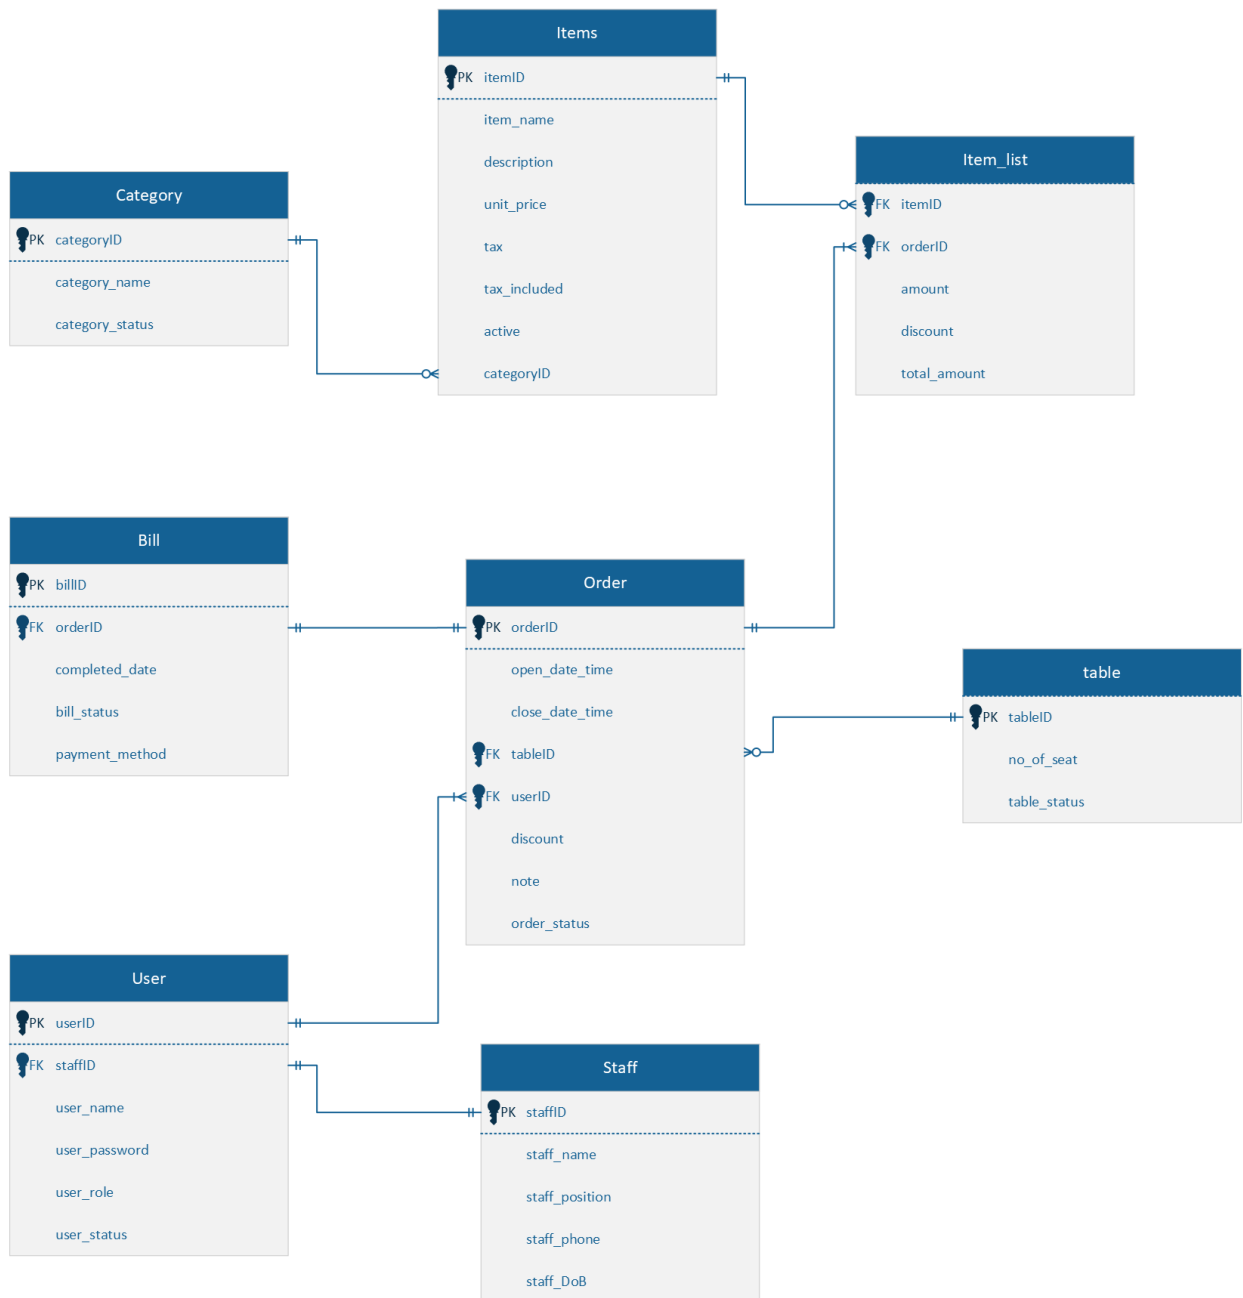

### 3.6.6 Menu management

The screen displays the 'Menu management' interface. On the left, under 'Current menu's', there is a list of menu categories: 1. Starter menu, 2. Full courses, 3. Drink list, 4. Main courses, and 4. Deserts. Below this list is a button '+ Upload new menu'. On the right, under 'Starter menu', there are fields for 'Name' (Starter menu), 'Description' (The best seasonal ingredients used to wake your appetite..), and 'Number of items' (12). Below these fields are three buttons: 'Modify menu items', 'Confirm changes', and 'Delete menu'. A red arrow points from a text box 'Opens menu and shows the items inside' to the 'Modify menu items' button.

The screen displays the 'Menu management' interface. On the left, under 'Starter menu', there is a list of menu items: 1. Nachos, 2. Ceasar salad, and 3. Antipasto plate. Below this list is a button '+ Add item'. On the right, under 'Nachos', there are fields for 'Name' (Nachos), 'Description' (Delightful plate of corn chips), and 'Ingredients' (Corn, red onions, tomato...). Below these fields are two buttons: 'Confirm changes' and 'Delete Item'.

### 3.7 CLASS DIAGRAM (entity diagram)

## 4 FUNCTIONAL REQUIREMENTS

### 4.1 FEATURE REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
FR-001	User login	The users log in to the system with a Unique ID and password. Every unique ID defines every user individually. Unique ID is generated when user is created.		
Version #	Date	Author	Requirement status	Origin
V-03	04.10.2021	Group W Dgr	Approved	Business requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-02		Login module functioning yes/no		Must

Requirement ID	Requirement name	Requirement description		
FR-002	Table Status	Users can see how many tables are reserved and how many are tables available. Users can change table status when they seat customer into a table. Table can have 3 statuses: Available, Holding & Occupied		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-08		Table map function testing		Should

Requirement ID	Requirement name	Requirement description		
FR-003	Menu item display	The system lists all the items displayed with name, description, price and ingredient details.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-07		Menu display functioning correctly yes/no		Must

Requirement ID	Requirement name	Requirement description		
FR-004	Modify item categories	The admin can make changes to the item categories. Changes are adding or removing items, modifying items, and activating or deactivating items. Admin can also add new categories, delete categories and activate and deactivate categories.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-05, BR-07		Item categories content modification testing		Would

Requirement ID	Requirement name	Requirement description		
FR-005	Order entry	User can select active menu items into an order and add dish modification note. (Note includes for example dietary requirements)		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Function
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-01, MF-03		Functional testing		Must

Requirement ID	Requirement name	Requirement description		
FR-006	Modify order	User can modify an order they have submitted. User can cancel the order, add items to order or delete items from order.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-02		Order can be cancelled yes/no		Would

Requirement ID	Requirement name	Requirement description		
FR-007	Review the Order	Before the order is sent to the system, the user is asked to review the order. User can see items of the order and the combined price. After review user confirms the order and the order is sent to the system.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-09		Confirmation pop-up function testing		Should

Requirement ID	Requirement name	Requirement description		
FR-008	Payment status	The system receives a confirmation from the POS system when the order has been paid. When confirmation is received, bill status is changed to "PAID" and related order status to "CLOSED"		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-06		Order status change to "paid" when the order is paid in POS yes/no		Must

Requirement ID	Requirement name	Requirement description		
FR-009	Kitchen display system	Users can change the status of orders that are "IN PROGRESS" to "READY TO SERVE" using the kitchen display system.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-07		Status change module functional testing		Must

Requirement ID	Requirement name	Requirement description		
FR-010	Order archive	After the status of an order is changed to “CLOSED”, the order is archived into the order history database.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-10				Must

## 4.2 USABILITY REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
FR-011	Understandable User interface	WaitrApp Order application system must be user-friendly, where the customer and staff can easily understand that system. Available buttons and action should be kept to a minimum amount to achieve the desired functionality.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-03		90% test users shall be satisfied with the usability. Survey will be conducted after the system is tested by users		Would

Requirement ID	Requirement name	Requirement description		
FR-012	Task Efficiency	The system must be efficient for the waiter. Several users can be handled at the same time without mixed ups		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-03		99% of test orders shall be correct		Must

Requirement ID	Requirement name	Requirement description		
FR-013	Tracking food	The user will see a time estimation of how long kitchen preparation will take before the order is ready to be served.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-04		Time estimation shall be $\pm 20$ % from actual order delivery time during testing period		Should

Requirement ID	Requirement name	Requirement description		
FR-015	Delivery Status	When the order status is set to “READY TO SERVE” by the kitchen users, the system will send notification to the WaitrApp mobile devices.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-07, BR-06		Response time testing		Would

### 4.3 PERFORMANCE REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
FR-014	Kitchen Display Response time	Receiving order from WaitrApp it will update the kitchen monitor in less than 10 seconds.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-06		Response time testing		Would

Requirement ID	Requirement name	Requirement description		
FR-016	Payment validation	The status of the bill should be updated within 15 seconds after the payment is confirmed in the POS		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-06, MF-06		Response time testing		Would

Requirement ID	Requirement name	Requirement description		
FR-017	Seat status update	After completing the payment method, the WaitrApp will update the seat status automatically after 5 minutes.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Feature
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-08, BR-06		Table map is updated 5 minutes after status "paid" yes/no		Should

#### 4.4 SUPPORTABILITY REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
FR-018	Training Staff	Personnel will have a planned training for utilization of the WaitrApp application		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-03		80% of personnel shall be trained before launch		Must

#### 4.5 SECURITY REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
FR-019	Access Control system	Only users with admin status can access the WaitrApp databases. Business content will be secured and accessing of this data will be logged.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-08		Access policy approved by Project Sponsor yes/no		Should

Requirement ID	Requirement name	Requirement description		
FR-020	Recovery order information	Create of backup and restoration system for the order database to save order information history and menu modifications in a case of system failure. Backup should be stored every 24 hours.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-08		Recovery database is set		Must

#### 4.6 INTERFACE REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
FR-021	Safe colors UI	Safe colors and design in UI for color blind users.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-03		Best practices in UI design for color accessibility should be used		Should

Requirement ID	Requirement name	Requirement description		
FR-022	Resolution UI	Possibility to adjust resolution in WaitrApp. Users should be able to change the size of the font.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-03		Resolution optimize min/med/max functioning yes/no		Should

#### 4.7 ASSUMPTIONS / CONSTRAINTS

- Kitchen display system is equipped with a touch screen OR the display system is equipped with a mouse to navigate the orders

## 5 NON-FUNCTIONAL REQUIREMENTS

### 5.1 HARDWARE REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
NFR-001	POS integration	The WaitrApp will communicate payment status of orders with the existing POS system. That's why the application must be compatible with the POS.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-01		POS integration configured and working yes/no		Must

Requirement ID	Requirement name	Requirement description		
NRF-002	Mobile device compatibility	The WaitrApp will be used with Android and iOS mobile devices. The application shall run on Android version 4.4 or higher and iOS version 10 or higher mobile devices.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-04		Compatibility testing		Must

## 5.2 SOFTWARE REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
NFR-003	Web browser compatibility	The WaitrApp shall be used via Web Browser. Application shall run on two newest versions of Microsoft Edge Chromium and Google Chrome Web Browsers.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-04		Compatibility testing		Must

Requirement ID	Requirement name	Requirement description		
NFR-004	Mobile device usability	The mobile devices can be used for other purposes too so the system must not be interfered with other applications running parallel on the device.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-04		WaitrApp runs without interference parallel with 6 applications during testing		Should

Requirement ID	Requirement name	Requirement description		
NFR-005	Firewall and antivirus protection compatibility	The system must be compatible with the firewall and antivirus protection on the device it runs, so that the firewall and antivirus protection will not block the use of WaitrApp.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-08		WaitrApp runs with firewall and antivirus protection in use yes/no		Must

### 5.3 PERFORMANCE REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
NFR-006	Fast response	The response time must be maximum of 3 seconds.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-06		The response time must be maximum of 3 seconds in 85% of the time on testing period		Should

Requirement ID	Requirement name	Requirement description		
NFR-007	Multiple logins	The system must allow 10 users logged in simultaneously		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirements
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-02		The system shall process up to 10 logged in users simultaneously yes/no		Would

Requirement ID	Requirement name	Requirement description		
NFR-008	Multiple orders simultaneously	The system must be able to process up to 60 orders simultaneously.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Major Features
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document MF-01		The system shall process up to 60 orders simultaneously yes/no		Must

## 5.4 SUPPORTABILITY REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
NFR-009	Maintainability	The system should be used when the restaurant is open. The system shall have 75 percent availability within 36 hours		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-08		The system shall have 75 percent availability within 36 hours		Must

Requirement ID	Requirement name	Requirement description		
NFR-010	Backup	The system should have latest backup restored in an event of a disaster		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-08		System can recover order data from backup yes/no		Must

Requirement ID	Requirement name	Requirement description		
NFR-011	Planned maintenance	The system maintenance should be done outside the restaurant's opening hours.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-05		Maintenance plan done yes/no		Must

Requirement ID	Requirement name	Requirement description		
NFR-012	Modular coding	The system code should be constructed modularly, so independent modules perform independent tasks.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-09		Modular coding is followed yes/no		Must

Requirement ID	Requirement name	Requirement description		
NFR-013	Coding practices	Best practices of coding styles should be used.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Use case modelling
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-09		Coding best practices are discussed and agreed by developer team yes/no		Must

## 5.5 SECURITY REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
NFR-014	User identification	The system must authenticate a user login using userID and password		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-02		Access to system shall be 100% by valid user login		Must

Requirement ID	Requirement name	Requirement description		
NFR-015	User access	Users must be logged in to use the application		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-02		Application shall be used only with verified login		Must

## 5.6 INTERFACE REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
NFR-016	Main menu navigation	The system must include navigation menu, which links the different views to one coherent menu.		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-03		Main menu module configured yes/no		Must

Requirement ID	Requirement name	Requirement description		
NFR-017	Order status change	The system should inform of the order status changes		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-07		Status change shall update within 3 seconds		Would

Requirement ID	Requirement name	Requirement description		
NFR-018	Error notification	The system should inform if an error occurs		
Version #	Date	Author	Requirement status	Origin
V-02	04.10.2021	Group W Dgr	Approved	Business Requirement
Reference documents		Verification steps / measurements / tests and their status		Priority
Vision & Scope document BR-08		Error notification will appear in a case of error yes/no		Would

## 5.7 ASSUMPTIONS / CONSTRAINTS

The WaitrApp application must be developed within the planned schedule so that the application is ready to use in the grand re-opening of the Wendy's Vegburger restaurant. The development should follow the budget and all extra expenditures must be approved by the Project Sponsor. The deliverable application must meet the most important requirements prioritized in the requirements document. The application development project should focus on the project scope and all additional requirements should be documented for develop later versions of the application.

## 6 COMPLIANCE REQUIREMENTS

Requirement ID	Requirement name	Requirement description		
NFR-020	Browser compatability	WaitrApp needs to be compatible with the most recent Chromium-based browsers		
Version #	Date	Author	Requirement status	Origin
V-01	13.10.2021	Group W Dgr	Rejected (duplicate)	BR-04
Reference documents		Verification steps / measurements / tests and their status		Priority
WaitrApp Vision and Scope v.1.0		Does the browser version work on Chromium-based browsers?		Must

Requirement ID	Requirement name	Requirement description		
NFR-021	Secure data transfer with POS	Data transfer between the POS system and the WaitrApp needs to be secured using SFTP protocol		
Version #	Date	Author	Requirement status	Origin
V-01	13.10.2021	Group W Dgr	Approved	BR-01
Reference documents		Verification steps / measurements / tests and their status		Priority
WaitrApp Vision and Scope v.1.0		Was SFTP protocol implemented?		Must

Requirement ID	Requirement name	Requirement description		
NFR-022	Payment details	No payment details should be transferred from POS system to WaitrApp in order to comply with the PCI compliance requirements.		
Version #	Date	Author	Requirement status	Origin
V-01	13.10.2021	Group W Dgr	Approved	Legal compliance
Reference documents		Verification steps / measurements / tests and their status		Priority
-		External review to meet the PCI standard		Must

Requirement ID	Requirement name	Requirement description		
NFR-023	Legal compliance	The current local law should be obeyed when implementing the software.		
Version #	Date	Author	Requirement status	Origin
V-01	13.10.2021	Group W Dgr	Approved	Legal compliance
Reference documents		Verification steps / measurements / tests and their status		Priority
-				Must

## 6.1 ASSUMPTIONS / CONSTRAINTS

- WaitrApp application needs to be updated to be compatible with the most current browser releases
- Browser updates on the devices should be done only when compatible version of the WaitrApp is available

## SOFTWARE REQUIREMENTS SPECIFICATION APPROVAL

13.10.2021

The undersigned acknowledge they have reviewed the **WaitrApp Software Requirements Specification** and agree with the approach it presents. Any changes to this Document will be coordinated with Change Coordination Board and approval documented by the undersigned or their designated representatives.

Signature:  Date: 13.10.2021
